Задание	<p>RUSSIA</p> <p>Russia (the official name – the Russian Federation) is the largest country in the world. The country is situated in Eastern Europe, Northern and Central Asia. It occupies about 1/6 of the Earth surface. Its total area is over 17 million square kilometers. Our land is washed by 12 seas, most of which are the seas of three oceans: the Arctic, the Atlantic and the Pacific. In the south and in the west the country borders on fourteen countries. It also has a seaborder with the USA. The country has a great variety of flora and fauna. There are numerous forests, plains and steppes, taiga and tundra, highlands and deserts in our land. The highest mountains are the Altai, the Urals, and the Caucasus. There are over 2 million rivers in the Russian Federation. The longest of them are the Volga, the Ob, the Yenisei and the Lena. Our land is also rich in various lakes. Lake Baikal is the deepest lake in the world. On the Russian territory there are 11 time zones. The climate conditions are rather different: from arctic and mild (moderate) – to continental and subtropical. Our country is one of the richest in natural resources countries in the world: oil, natural gas, coal, different ores, ferrous and non-ferrous metals and other minerals. It is one of the highly developed industrial powers in the world. The main industrial branches are machine-building, aircraft, aerospace, automobile, textile, chemical and others. The Russian Federation is a multinational state. It comprises many national districts, several autonomous republics and regions. The population of the country is over 140 million people. More than 100 different nations and nationalities live in the Russian Federation. Russian is the official language of the state. The national symbols of the Russian Federation are the state white blue-red flag and 2-headed Eagle. The Russian Federation is a constitutional state headed by the President. The President controls only the executive branch- the government, but not the Supreme Court and Federal Assembly. The country government consists of 3 branches: legislative, executive and judicial. The legislative power belongs to the Federal Assembly comprising two chambers: the Council of Federation (upper Chamber) and the State</p>

	Duma (lower Chamber). Each chamber is headed by the Speaker. The executive power belongs to the Government (the Cabinet of Ministers) headed by the Prime Minister. The judicial power belongs to the system of Courts comprising the Constitutional Court, the Supreme Court and federal courts. The foreign policy of the Russian Federation is that of international cooperation, peace and friendship with all nations of the Globe irrespective of their political and social systems

I want to win an Olympic race, I want to see the Earth from space, I want to travel to Katmandu I want to be rich and famous, too. I want to be on Hollywood's screen, I want to invent a new machine, I want to be very clever and wise, I want to win the Nobel prize, But most of all, I want to be Healthy and strong, and nice.</p> <p>Запишите новые слова -портной по пошиву лёгкой одежды- a dressmaker -аптекарь- a chemist -водопроводчик- a plumber -продавец- a salesman -машинист- an engine driver -женский парикмахер- a hairdresser -медсестра- a nurse -архитектор- an architect</p> <p>Building Professions a carpenter-плотник a bricklayer (mason)-каменщик a plumber-сантехник an electrician-электрик a house painter-маляр a concrete layer-бетонщик a slater-плиточник a roofer-кровельщик a welder-сварщик a fitter-слесарь a glazier-стекольщик</p> <p>Прочитайте текст</p> <p>My Future Profession (Building/Construction)</p> <p>A building profession is one of the most important and necessary in any country of the world. It used to be so since ancient times, when people built caves, made of mud, leaves and stones. During the last 100 years many new methods of building have been discovered. Nowadays the building is completed in concrete, prestressed concrete, steel, plastics, foamed glass and bricks.</p> <p>Almost everyone saw the construction of a building and followed its progress with interest. First the excavation is dug for the basement. Then the foundation walls below ground level are constructed. After this the framework is erected and clothed with various finishing materials and</p>

	<p>protected by several coats of paint. The floors, walls, roofs and other parts of a building must be carefully designed and proportioned.</p> <p>The architect must decide what the size of the walls, the floors, the beams, the girders will be and how they will be placed and arranged. Every building should be provided with water, electricity, ventilation and heating systems. The water supply and sewerage systems are called plumbing.</p> <p>An estimate must be calculated after which the builders' work can be started. Among the building professions you can come across a carpenter, a bricklayer (mason), a plumber, an electrician, a house painter, a concrete layer, a slater, a roofer, a welder, a fitter, a glazier and many more.</p>
